

THINK, DATA-LINC FOR INDUSTRIAL DATA COMMUNICATION MEETING CONNECTIVITY DEMANDS FOR NOW AND THE FUTURE

HIGH-SPEED MODEM HSM800E

LICENSE-FREE 802.11B/G/N 2X2 MIMO ETHERNET

For data intensive applications such as The Connected Enterprise, video surveillance, Industrial Internet of Things or any big data network, Data-Linc's High-Speed Modem HSM800E offers long range communication for up to 6.4 km (4 miles) LOS— with exceptional RF speeds up to 300 Mbps, making it ideal for moving large quantities of data reliably and quickly in harsh industrial environments.
