

### **Directive 2002/95/EC (RoHS) Statement**

Products supplied by Data-Linc Group do not fall under the scope of Directive 2002/95/EC ("RoHS"). They also will not be incorporated, according to our knowledge, into products falling under the scope of this directive.

Data-Linc Groups's equipment is intended to be used in one of the following system installations:

- as part of a **fixed installation** - this is defined by the European Commission's "Frequently Asked Questions" paper of 24 May 2005 (lastly updated February 2006) as a combination of several items of equipment, systems, finished products and/or components assembled and/or erected by an assembler/installer at a given place to operate together in an expected environment to perform a specific task, but not intended to be placed onto the market as a single functional or commercial unit.
- or, to be installed by our customers as part of a **large-scale stationary industrial tool/machine** – this is an exclusion within product category 6 - electrical and electronic tools. It is defined by the European Commission's "Frequently Asked Questions" paper of 24 May 2005 (lastly updated February 2006) as, a machine or system, consisting of a combination of equipment, systems or products, each of which is designed to be used in industry only, permanently fixed and installed by professionals at a given place in an industrial machine or in an industrial building to perform a specific task.

Based on these defined uses, Data-Linc products do **not** fall within the scope of the RoHS Directive.
